

Structural Defect

Static-X

I don't care what you say and
I don't care what you see and
There's still a better way
A structural defect I don't care what you do and
I see the real you and
There's nothing here to stay
Structural defect Crow, bar to force the hold
Drill it, do it, drill it, do it
Eat, all the problems leave
Bleeding from it Commiserate me and
Try to elate me and
It liberates me
Structural defect Commiserate you and
Try to elate you and
It liberates you
Structural defect Crow, bar to force the hold
Drill it, do it, drill it, do it
Eat, all the problems leave
Structural defect Explode reloading and
Coerce controlling and
I'm overdosing
Expose it forcibly and
Escape emergency and
The inconsistency Crowbar to force the hold
Drill it, do it, drill it, do it
Eat, all the problems leave
Leading from this Structural defect
Structural defect
Structural defect
Structural defect
Structural defect
