

Closer (ost drop dead diva)

Shawn McDonald

Looking for color in a shade of gray
Looking for love in a drop of rain
Trying to find change from the old mundane
But everything I do just feels the same
Spending my life out in the desert
Been gone so long feels like forever I just want to be closer to you
I just want to be closer
I am yours
You can have all of me, anything, everything
I just want to be closer A day without you is a thousand years
A day without you is a million tears
Tell me why do I run when I am in fear
Why do I run when you are so near
Been spending my life out in the weather
Been gone so long and I need some shelter I just want to be closer to you
I just want to be closer
I am yours
You can have all of me, anything, everything
I just want to be closer Wherever you go, wherever you are
I just want to be there with you I just want to be closer to you
I just want to be closer
I am yours
You can have all of me, anything, everything
I just want to be closer Looking for color in a shade of grey
Looking for love in a drop of rain
