Albino Flogged In Black

Paradise Lost

O you sweet, little six six sixteen
I'm the savior of your sisterhood
Stretched thing, held in leash for daddy
Clench the thong now, honey, clench it goodShadow blue, the shadow of the ox whip
Whistling through the dark and kiss my poor child
Slashed sister, kneel before your daddy
And squeeze now, honey, swallow my prideO you are my favorite nightmare
O you are my favorite nightmareNude thing, O the nude so naked
Mummy's little girl a long way from home
All by herself on a southern highway
Now you're the princess of my leather domeO you are my favorite nightmare
O you are my favorite nightmareO you sweet, little six six sixteen
I'm your daddy you're my flesh and blood
Shadow black, the shadow of the razor
All over my room, just flesh and blood
