

Baby I Need You

[Kim Taylor](#)

Maybe I need you
Here in this hotel room
Thinking about angels
Thinking about what they do
Maybe they'll fly
Bring you right here
Cover them miles
Heaven knows what I need
Maybe I need you

Maybe I need you
Here in this town so sweet
Everything quiet
Everyone gone to sleep
Thinking about Elvis
How he made mama cry
Elvis find Jesus
Making her feel alright
Maybe I need you.

Maybe I need you
Here in this world on fire
Everything moving
Everyone always tired
Thinking of futures
Everything falls away
Everything changes
Nothing has changed today
Maybe I need you.
