

# Is It a Lie

## Bodyjar

You take a simple part of history  
And then you feed it back to me  
I'm smart enough to know We try, we're living under plastic skies  
Reality personified  
And everyone's the same Is it a lie living a lifetime is reverse  
Is it alright living a lifetime in reverse  
Like nothing's wrong and everything's okay You watch images on movie screens  
They contradict your memories  
And everything you know Deny the stories that are never told  
Now culture can be bought and sold  
To anyone today Is it a lie living a lifetime is reverse  
Is it alright living a lifetime in reverse Is it a lie living a lifetime is reverse  
Is it alright living a lifetime in reverse  
Like nothing's wrong and everything's okay  
Okay, everything's okay Is it a lie living a lifetime is reverse  
Is it alright living a lifetime in reverse Is it a lie living a lifetime is reverse  
Is it alright living a lifetime in reverse  
Like nothing's wrong and everything's okay  
Okay, everything's okay
