Pushed Aside

The Geeks

I can't clear my mind of yesterday
And all the words I never got to say
Does it feel right? It feels like such a waste
When there's nothing out there that we couldn't change
But you gave up on meI really wish you wouldn't push me aside
I was only holding on to what you gave me
And I really wish that it had felt like you tried
Before you threw it all away in just a momentHere we are, we're miles apart
I guess it all came down to your change of heart
And maybe you're right, I'd be better off
But that doesn't change just one small thing
You turned your back on meI really wish you wouldn't push me aside
I was only holding on to what you gave me
And I really wish that it had felt like you tried
Before you threw it all away in just a moment
Threw it all awayI know we'll meet again on Sunday
I know we'll meet again on Sunday
I know we'll meet again on SundayI really wish you wouldn't push me aside
I was only holding on to what you gave me
And I really wish that it had felt like you tried
Before you threw it all away in just a moment
You threw it all away
