

Me (feat. Serayah)

Empire Cast

Don't look at me that way
Like you know how it's going to end
'Cause I'm too sad to be honest
And I'm too hurt to pretend
And darling someone not mend Walk out on me
Walk out on me
See you for the last time
Walk out on me
Walk out on me
Giving you a life line
Say so long then walk away
Say so long then walk away We tried our best to do this
We hung in there for a while
But love can't live on a promise
It was meant to fall out of line
Darling this is our last goodbye Walk out on me
Walk out on me
See you for the last time
Walk out on me
Walk out on me
Giving you a life line
Say so long then walk away
Say so long then walk away Walk out on me
Walk out on me
See you for the last time
Walk out on me
Walk out on me
I'm giving you a life line
Say so long then walk away
Say so long then walk away You say so long and then walk away
