

# Time Is Running Out

## Burning Image

What happens when we just stop caring?

What happens when we start to feel the same?

The big surprise, you've joined the masses

You look around, there's no one left to blame

Time is Running Out, Times are changing

Time is Running Out

Don't worry about what they think, they can't think any way

They're going to live and die the way they are

It's all fault, we let it happen

We tried to get you all to understand

Now it's too late, to really change things

We've got to realize now just where we stand

Repeat chorus (Time is Running Out)

You never know, we just

might change things

If I were you, I wouldn't hold my breath

You promised us you'd make things better

You've got us living in a brave new world

Repeat chorus (Time is Running Out)
