## Sonne Hagal

This journey without movement  
Heading out for no man's land  
The way ahead my only ally  
Early hours, in the silence This credence keeps me upright  
Through the storms and disasters  
A straight line towards the unknown end  
Deceit waits on the back roads This unwavering inner  
Keeps fear a welcomed pointer  
I uprooted now, the fertile soil  
As plot and shadows thicken This juggernaut cannot be stopped  
On any scale or planet  
Ghostly tracks in my wake and ahead  
An experience, cannot be shared Wheels of time  
Keep them turning  
Carriage of concepts  
Wheels of time turn  
Circling the planes Wheels of time  
Keep them turning  
Carriage of concepts  
Wheels of time turn  
Circling the planes Light-less voyage, blinding speeds  
Certain, I'll stay the distance  
Abstract shapes, enigmatic design  
I know enough to endure Light-less corridors, ageless  
Familiar alien  
Contradictory engines run high  
Deeper and further above Journey of no promises  
Beyond the lust for rewards  
Focus on the movement of the wheel  
Union of stillness and change Journey of the ages all  
I'll follow outside the edge  
Breath, blood, sacrifice bleeding eyes  
Unending journey ahead Wheels of time  
Keep them turning  
Carriage of concepts  
Wheels of time turn  
Circling the planes
