Take One Step

Fielfraz

Keith learns to read, Ruby learns to dance
me I learn to lose in the game of chance
it's like everybody's got a gun against
their heads
it's like everybody's got some things they
can't forget
I say babe let's pretend the party never ends
if you ask me I'm just a little bit confused

You better take one step before you fall apart
if you take one step before you
- fall apart

He said: "Look me in the eyes,
I wear trouble on my shirt
I'll mangle up your face if you speak
on word"
so if your heart need a rest
have it tattooed on your chest
if you ask me I'm just a little bit confused

You better take one step before you fall apart
if you take one step before you
- fall apart
