

Poor Man

Johnny Robinson

Bare, naked and bare is how I came

And I'll be leaving just the same

So why be afraid

YeahI'm a poor man, walking down the road

The straight and narrow is leading me to goldSpace, the second floor of outer space

Where all infinity awaits

I'm on my way

To a better placeI'm a poor man, walking down the road

The straight and narrow is leading me to gold

So I'm a rich man, walking down the road

The straight and narrow is leading me toYou gave to me, life everlasting

All I can see is life everlasting

You gave to me, life everlasting

All I can see is life everlasting, life everlastingI'm a poor man, walking down the road

The straight and narrow is leading me to goldYou gave to me, life everlasting

All I can see is life everlasting

You gave to me, life everlasting

All I can see is life everlasting, life, la la life

Well you gave me life

Oh, life everlasting, life everlasting
