

South China Moon

Bishop Allen

South China moon
What you trying to prove
Shining like a light, in the night

Put a thought in my head,
Make me worry instead
Burn a hole in my bed
Out of spite,

I just don't get it
There now I said it
I turn the light out
And now regret it (???)
Decide, decide, decide, decide it's true
And I'll come back to you
South china moon,
South china moon

How'd you get in my room?
(How'd you get in my room?)
Little pieces of you
(Little pieces of you)
So bright,
Painted silver and gray
(Painted silver and gray)
Do you think that's okay?

Almost looks like the day
(Almost looks like the day)
But not quite

I just don't get
There now I said it
I turn the light out
And I'll regret it,
Decide, decide, decide, and decide it's true
And I'll come back to you
I'm coming back to you
I'm coming back to you

I just don't get it
There now I said
I turn the light out
And I'll regret it
Decide, decide, decide, decide its true
I'm coming back to you
(South china moon)
I'm coming to you
(South china moon)
I'm coming back to you
