

She's Got the Rhythm

The Summer Set

she's got the rhythm and I can't forget
she's gonna give in
we're gonna give it two more years
and oh my god
she's got the rhythm, she's got me waking up

come on, come on
show me what you got
I swear, we're gonna tear it up
oh yeah, we can leave it all behind cuz

you've got it going on
and I've gotta say

she's got the rhythm and I can't forget
she's gonna give in
we're gonna give it two more years
and oh my god
she's got the rhythm, she's got me waking up

I keep your picture by my bedside
I'm sleeping all the time
just to wake up to you
just to wake up to you
and I'm in love, with everything you do
you can have the best of me
forget what I want, your all that I need
