

That Was Then

Whitney Wiatt

You're away for a while
Nothings the same anymore
I forget what it's like
I've never felt this beforeIt's just the same old thing
We go in circles cause we're so in love
And I don't wanna wait
And my head is spinning cause I'm losing touch
And all it does is find it's way back to mistakesIt's the simple things like you and me
It's like everything is perfect we find
But then I turn around to find something else
And I'm losing my mind
But i get back up and try
One more timeI am here for the night
I've never felt so alone
So I wrap myself tight
In a blanket that you left at homeIt's just the same old thing
We go in circles cause we're so in love
And I don't wanna wait
And my head is spinning cause I'm losing touch
And all it does is find it's way back to mistakesIt's the simple things like you and me
It's like everything is perfect we find
But then turn around to find something else
And I'm losing my mind
But I get back up and try
One more timeIt's like what are the odds that you'll come back home
I've been lying to myself just long enough
And I can't take it anymore
It's like the second that you leave
I already believe that you're not coming back
And I'm scared, I'm scaredIt's the simple things like you and me
It's like everything is perfect we find
But then I turn around to find something else
And I'm losing my mind
But I get back up and try
One more time
One more time
