

# Another Lie

## Neckbreak Nation

She's a rumor in the night  
It's crazy  
You can see her but she isn't there  
She's the stealer of the light  
It's crazy  
But you go anywhere  
It was just a summer night  
Maybe  
When a shiver cut across the air  
Should you run and get away  
Maybe  
To go where-where-where  
She crouches the hunter  
Ready to tell you  
Another lie  
Another lie  
You could see the side of someday  
Feel the power of the young and strong  
You were learning how to fly someday  
You were wrong-wrong-wrong  
She jumped at the moment  
A chance to tell you  
Another lie  
It was just a summer night  
Maybe  
When a shiver cut across the air  
Should you run and get away  
Maybe  
To go where-where-where  
She jumps at the moment  
She crouches the hunter yeah  
You look and you know she's telling you  
Another lie  
Another lie  
Why it's crazy  
When you feel you're getting stronger  
Why it's crazy  
All the lies are getting longer  
Another lie
