

# Lullaby

## Musiq Soulchild

Girl, I feel like making something  
To make your mind and your body relax  
That can make you feel good, real good, yeah  
And make you wanna keep callin' back 'Cuz love, the way I feel about you right now  
Makes me wanna take you up to cloud nine 'cuz  
With all this love I gotta give let me show you how  
I can fill you with this love inside 'cuz All I wanna do is spend the night with you  
Put your mind at ease  
Just like a lullaby, just like a lullaby And baby, if you just give me your trust  
Shower you with love 'til you're fast asleep  
Just like a lullaby, just like a lullaby I can make your body twinkle, twinkle  
And make your eyes glisten like, like little stars  
Just looking at you, baby oh how I wish  
I can make you see how beautiful you are 'Cuz love ain't nothin' more precious than  
When a woman and man come together as one  
So take off your clothes and lay back  
And let me hear you say that you're ready for this love All I wanna do is spend the night with you  
Put your mind at ease  
Just like a lullaby, just like a lullaby And baby, if you just give me your trust  
Shower you with love 'til you're fast asleep  
Just like a lullaby, just like a lullaby Oh, oh, baby, close your eyes  
Let me hold you tight in these arms  
And make you feel like you're tucked away  
'Cuz I'll keep you safe from harm  
'Cuz baby, you know I got you, don't worry, baby All I wanna do is spend the night with you  
Put your mind at ease  
Just like a lullaby, just like a lullaby And baby, if you just give me your trust  
Shower you with love 'til you're fast asleep  
Just like a lullaby, just like a lullaby All I wanna do is spend the night with you  
Put your mind at ease  
Just like a lullaby, just like a lullaby And baby, if you just give me your trust  
Shower you with love 'til you're fast asleep  
Just like a lullaby, just like a lullaby
