

In the Heat of the Fire

Flatt Lonesome

If you feel discouraged
Tatter and torn
Does life leave you breathless
Broken and worn
Give it to Jesus
Cast all your cares on him ever more He's in the valley
He's in the storm
He'll be your shelter
He'll keep you warm
He is your solid rock
In the midst of the mire
You can still here his voice
In the heat of the fire If you're like Jonah
In the belly of the whale
Running so far
And headed for hell
Cry out to him
He'll hear your voice
And answer your prayer He's in the valley
He's in the storm
He'll be your shelter
He'll keep you warm
He is your solid rock
In the midst of the mire
You can still here his voice
In the heat of the fire Yes he's in the valley
He's in the storm
He'll be your shelter
And he'll keep you warm
He is your solid rock
In the midst of the mire
You can still here his voice
In the heat of the fire You can still here his voice
In the heat of the fire You can still here his voice
In the heat of the fire
