Pop Evil

Advisory - the following lyrics contain explicit language:

Black magic hypnotized
Magnetic feelings pull me deeper inside
Thoughts of forbidden lust
Calming my desires is never enough
The taste of her lips, the curse of the kiss
The wave of her hips
She got me walking on a thin line
She said come over to the dark side
She crawled all up in my mind
She said come over to the dark side
Blessed for beyond the pale
Trance in my head let me under the veil
Why would I break the spell?
If you're my demon bride take me to hell
The taste of her lips, the curse of the kiss
The wave of her hips
She got me walking on a thin line
She said come over to the dark side
She crawled all up in my mind
She said come over to the dark side
Come over to the dark side
Come over to the dark side
She got me walking on a thin line
She said come over to the dark side
She crawled all up in my mind
She said come over to the dark side
She got me walking on a thin line
She said come over to the dark side
She crawled all up in my mind
She said come over to the dark side
Come over to the dark side
Come over to the dark side
