

Party Girl (Danny Jones Mix)

[McFly](#)

The clock hit twelve, she entered the room
But if looks could kill then we all would be doomed
After just one kiss you're not able to move
From her venomous lips and the poison perfume yeah
She started swaying so sexy and looking at me and it got
me caught in a mind control
This place is prison, I'm chained up, I give up and I'm at her mercy
She wouldn't let me go
She said she likes to dance all by herself cos she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl, I love this little party girl
She's such a little party girl, I gotta leave this room, it's starting to spin
But there's no escape from this mess
that I'm in
She can't resist the temptation to sin
So pull your collar up before she sinks her teeth in, yeah
She started swaying so sexy and looking at me and it
got me caught in a mind control
This place is prison, I'm chained up, I give up and I'm at her mercy
She wouldn't let me go
She said she likes to dance all by herself cos she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl, I love this little party girl
She's such a little party girl
I love this little party girl, yeah
She said she likes to dance all by herself cos she's a party girl
She don't care for nobody else, she's in her own world
I love this little party girl, I love this little party girl
She's such a little party girl
