

Everything You Are

We Are Forever

I won't come in it's a sin to admit that I want you to feel me
I think about it every time that your skin touches it's a crime
And a waste of our time not to get a little dirty now
So let's turn the lights down

Cause you're a feeling I can't deny
You're an animal and I like the way you move your body on the floor
Baby I want more
I'm addicted I adore everything
Everything you are

And I gave away that thoughts of you were drifting through my head all day
I'll write it down and see if you remember me in the morning
You're not the first you're not the last
Don't sweat it girl we've felt this way before

Cause you're a feeling I can't deny
You're an animal and I like the way you move your body on the floor
Baby I want more
I'm addicted I adore everything
Everything you are

Everything you are

Cause you're a feeling I can't deny
You're an animal and I like the way you move your body on the floor
Baby I want more
I'm addicted I adore everything
Everything you are
