Should Have Known

Ignite

what happened here?
where did the bottom go?
when did you rush to crush the envelope?
suppose i should have known
all alongthe bullet - that came from the gun
pierced right through the target
hit more than one
(should have known)desperation - nothin look the same
checking for a heartbeat
chewing on the pain
suppose i should have known
right from the startthe bullet - that came from the gun
pierced right through the target
hit more than one
(should have known)what a waste of life
and look what you've done to everyoneafter - all's been said and done
there's nothing much left to look at]
except a coffin
suppose i should have known
i was wrongthe bullet - that came from the gun
pierced right through the target
hit more than one
(should have known)
