Ying Yang Twins

Ahhhh shit
Yall know what time it is (What time is it)
Its the return of the motha fuckin ying yang twins
And you know this is your boy Collipark
And we back on the fifth L.P.
We back in this biz baby, but this time we gonna do it a lil different
For the first half of the album we gonna do it for the die hard ying yang twins fans
The ones that been with us from day one
The second half of the album we gonna team up with my man Wyclef and my man Jerry Wonder
And do it a little different
Make it a little musical for ya'll
So what you can do right now is sit back, grab you some gack, some patron, fire you up a blunt
And all you ladies that like to shake ya ass
You already know its about to go down in this bitch
Its the motha fuckin chemically imbalanced L.P.
So we free to do it like this
Yo check it out
