Missing My Baby

Selena

You're always on my mind
Day and night
When I think of you, boy
Everything feels so right
I often think of the happy times we spent together
And I just can't wait to tell you that I love you
Time keeps passing by
You're not here
I feel so all alone
When I don't have you near
I often think of the happy times we spent together
And I just can't wait to tell you that I love you
I'm missing my baby
Missing my baby
I gotta hold you tight
And never let you out of my sight
Missing my baby
Missing my baby
I gotta feel your heart beat
Next to mine
Gotta feel it
Time keeps passing by
You're not here
I feel so all alone
When I don't have you near
I often think of the happy times we spent together
And I just can't wait to tell you that I love you

I'm missing my baby
Missing my baby
I gotta hold you tight
And never let you out of my sight
Missing my baby
Missing my baby
I gotta feel your heart beat
Next to mine
Sometimes at night when I go to sleep
I hold my pillow tight thinking of you 'til it's hurts
But in my mind, I know you're mine

And somewhere you're thinking of me too
Gotta have you, gotta hold you
Got to have your lovin'
And tell you that I love you
And I really miss you
I'm missing my baby
Missing my baby
I gotta have you near
Right here by my side
I'm missing my baby
I'm missing my baby
I gotta hold you tight
And never let you out of my sight
Missing my baby
I'm missing my baby
I gotta feel your heart beat
Next to mine
