

# Touch the Stars

[Rachele Lynae](#)

Roll those wheels around  
Head 'em over to my house  
The day is done but its not gone  
And we're still young  
So Le's go waste some time and  
Paint that city limit sign  
I don't care what we do  
When I'm with you  
When I'm with you Woh, oh, oh  
We've got forever  
Let's take it for a ride  
Woh, oh, oh  
When we're together  
Baby we can fly  
And touch the stars tonight Hangin with our friends  
Build a bonfire in the sand  
Watch the sparks like fireflies  
Light up your eyes  
And you can steal a kiss  
Take my heart and run and with it  
Its love I want to fall into  
When I'm with you  
When I'm with you Tonight Tonight we can fly yah  
Tonight Tonight we'll touch the stars yah  
Tonight Tonight we can fly  
Tonight Tonight We've got forever  
When we're together
