

Save Mother Earth

Merl Saunders

verse I

Lets protect the environment,
protect it with management,
the birds in the trees,
the wiggling bees,
they never hurt us so please.

chorus:

save the mother earth,
we all know they never hurt,
the nations embrace,
and us will give faith,
for us to save the mother earth.

verse II

lets protect the mother earth,
animals are unsafe have you heard,
the fish in the seas protect without ease,
they never hurt us so please.

bridge:

die for you will save the mother earth,
die for the importance of it,
die for i will save the mother earth,
for a better place will it be.
