

# Saving Grace

## Flyleaf

Pleading cause we prayed for peace tonight  
Bleeding cause you knew the fight was right

Take my hand, we're almost home

We can see the fire glow

Save me grace

I'm sick of saving face

Will You hold me close?

You're all I want to know

Anymore

Wake me up with patience I don't know

Call me by a name that I love

Take my hand, we're almost home

We can see the fire glow

Save me grace

I'm sick of saving face

Will You hold me close?

You're all I want to know

Desperate love has got me where You want

I surrender

Take us to the place we can start

Happy ever after

Desperate love has got me where You want

I surrender

Take us to the place we can start

Happy ever after

Happy ever after

Save me grace

I'm sick of saving face

Will You hold me close?

You're all I want to know

Save me grace

I'm sick of saving face

Will You hold me close?

You're all I want to know

Anymore
