Burn My Guitar

New Yesterday

Lately I've been swinging to the same old songs
A-La la la la la la la la la la
Because once a day I just sing along
A-La la la la la la la la la la
Going there, he disappears, disappears
Need something else to make me happy
So happy

Burn my guitar, burn my guitar
Burn my guitar, in the flames
Burn my guitar, burn my guitar
Burn my guitar, in the flames

And what turned woah with the boys and the girls
A-La la la la la la la la la la
We sing about ass on the radio
A-La la la la la la la la la la
I can't stay, anything goes, anything goes
Need me something else to make me powerful, so powerful

Burn my guitar, burn my guitar
Burn my guitar, in the flames
Burn my guitar, burn my guitar
Burn my guitar, in the flames
