Nuclear Attack

[Resistance 77](#)

No, no, no
Out on the streets they're all living in fear
You can hear their hearts pound as the moment draws near
One push of a button is all it would take to dress the world in black
One fault in the system, a fatal mistake
And you'll never come back from a nuclear attack
The Russians are ready, the U.S. is armed
They try and tell us there's no cause for alarm
If you think you can live like a rat in a sewer
Might stand a chance to stay alive
No one can say, no one knows for sure
Just who will survive a nuclear attack
You ain't never coming back, no, from a nuclear attack
Oh, no no no no no, yeah oh
Oh, yeah, look out
Out on the streets they're all living in fear
You can feel their hearts pound as the moment draws near
You won't know what's hit you, it'll happen so fast
Won't be the time to even scream
You'll just be burned up by the heat of the blast
A thing of the past in a nuclear attack
Nuclear attack, you ain't never coming back
Ain't never coming back, no no no no
From a nuclear attack, oh
You ain't never coming back in a nuclear attack, yeah oh, no no no
