Apple Of Your Eye

Peter Frampton

Maybe take just one more look around when you need a friend
To go on the ground, you must fend for yourself
Till you win, win the race, then you laugh in their face
Swear me in, Ill testify, Ill be the apple of your eyeWhen you count the million eyes on you
And theyre waiting just for what you do
Dont believe all that you read
Caught the news like some bad fitting shoes
Hurts when you laugh as youre singing in the backYou cant pretend that your fortune wont end
You cant believe that you got all you need by your side
When it comes down to your own peace of mind
Lose everything including your pride and still surviveMaybe take just one more look around when you need a friend
To go on the ground, you must fend for yourself
Till you win, win the race, then you can laugh in their face
Ill testify, Ill be the apple of your eye
