

Alive

The Temper Trap

running round circles
yeah we just running round circles
staring at the screen trying up our laces
and just the first drink to be offered
working the machine the tv's reading out the news
got everything to lose, oh yeah, feel so good
so good to be alive
x2
running from the messes
staying in line the taxes
waiting for return
and? got an education
we drifted? repetition
a lot of time to burn the tv is not the news
got everything to lose, oh
ohh feel so good
good god good
yeah feel so good, good be alive ahhh, ahhh
