Sing To Me

Run Kid Run

The song you sing
Orchestrates in perfect harmony
A verse that shines of brilliance
Whispers every moment subtlyYou compose a symphony
Playing with notes that are in key
A sound that will not be forgotten
Defining claritySo sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never knownA love song like no other one
Resounds on in time
Your design it lights up the distance
Signaling the noise to help me findThe words I can't ignore
So I'll sing along in a discord
Every measure, beat after beat
I'm slowly learning moreSo sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never knownSo sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never knownThis harmony rises up in meSo sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never knownSing to me this melody
I'll let the rhythm take controlSo sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never known
