

# Strangest Places

[Abra Moore](#)

To one thing I never can get  
Can't put my fingers on it always forgetting my lines  
One thing I never can get  
Displacing logic in the memory banks of my mind I find myself in the strangest places  
My head's got a mind, said a mind of it's own  
I find myself in the strangest places  
I wake up I've been sleeping in somebody's shoes, oh This is the last of all of my songs  
Got to get, to get you in the back of the room  
You're one thing I never can get  
Can't put my fingers on it always forgetting my lines I find myself in the strangest places  
My head's got a mind, said a mind of it's own  
I find myself in the strangest places  
I wake up I've been sleeping in somebody's room Yeah, yeah I find myself in the strangest places  
My head's got a mind, said a mind of it's own  
I find myself in the strangest places  
I wake up I've been sleeping in somebody's shoes I find myself in the strangest places  
My head's got a mind, said a mind of it's own  
I find myself in the strangest places  
I wake up I've been sleeping in somebody's room I find myself in the strangest places  
My head's got a mind, said a mind of it's own  
I find myself in the strangest places  
I wake up I've been sleeping in somebody's shoes
