

# Free Ride

## Embrace

I wanna free ride  
Just to see what it feels like  
But even if it feels right  
I'm no fool  
In the hospital where stretchers are arms and hands  
I needed someone who could understand  
Although these things they are never planned  
I wanna feel something for free I wanna clear view  
With nothing there that I can't see through  
Cos everybody wants to understand In the hospital where stretchers are arms and hands  
I needed someone who could understand  
Although these things they are never planned  
I wanna feel something for free
