

Travels

Misnomer

Fly me there,
drive me here,
Take me somewhere anywhere within in your atmosphere,I need a home,
Dont need to roam,
Crowded places where i still just stand alone,Direct from a to b
Thats how it feels to be entirely free
I've travelled far and wide
But i can travel much further by your sideI need some air,
I need some care,
I need somebody to pinch just to know they're there,I need a home,
Don't need to roam,
These crowded places where I still just stand alone,Direct from a to b
Thats how it feels to be entirely free
I've travelled far and wide
But i can travel much further by your sideTake me take me take me take me take me somewhere,
I can go for miles when I know that you're there,
Take me take me take me take me take me somewher-er-er-er-ereDirect from a to b
Thats how it feels to be entirely free
I've travelled far and wide
But i can travel much further by your sideOaoao oaoaoo *10Direct from A to B,
That's how it feels to be entirely free,
I've travelled far and wide,
I've travelled far and wide'
I've travelled far and wide'
I can travel much further'
I can travel much further by your side
