Laura

Dynamite Hack

laura i would tie my hair in knots
to get a look from you
and i would never think
that's alot for me to do
and when you said you were
busy yesterday
and went out with your friends
i sat home and thought
of what to say when i saw you againeven though you treat me bad
break my heart and sleep around
i never get too mad
'cause i know you and
how you can be
that's why i'll never let you
get away from me... that easilyi watched 10 romance
movies on tv
just last night alone
think of what a great
boyfriend i could be
if you'd just come back home
but no jake's better
he's got a good physique
he's stupid but he's huge
i was just as cut as that big creep
when mojo led the luge
