

In the Words of the Profit

Hades

In the words of the profit
Fly out of this world we're on
You'll get a global point of view
Altered consciousness gives a perspective that's untrue Too late to stop it
It all went wrong
Could not prevent it
With just a song No profit and no return from the abyss you fell into
This planet is fine for some but that was not the case for you Too late to stop it
It all went wrong
Could not prevent it
With just a song
