For Three Of Us

Tempest

At a night, is worth a candle
Ye talk a while among good friends
Daybreak brings another journey
God knows where we'll meet againChorus:
Over hills and valleys
Mountains beyond
This world's a bit far to wander
To be here and goneHad we even known in the beginning
That you were twistin' our fingers so
And drivin' our feet across the borders
The way the northman drives the snowChorusCoals that spark
Speak o' ancient winter
Grainless hues that steel the stone
All thats spent, has led us all here
And all that's here moves onChorus (x2)To be here, and gone
