

Best Song Ever (Pop Radio Mix)

Katie Armiger

Drivin' through town
And I heard this song
I'm comin' back and it wont be long
Broke my heart
And made me cry
But according to the song I'm gonna be alright Yeah you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend kill my innocence
Your gonna love me forever
According to the song,
According to the best song ever. Whoaa whoaa
Whoaa whoaa Pretty sure your gonna say sorry
'Cause the second verse said I don't have to worry
Your lost without me and I've got proof
This pretty melody is tellin' me the truth Yeah you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend kill my innocence
Your gonna love me forever According to the song,
According to the best song ever. And I know how it goes whoa
I'm not crazy you still want me don't you baby
Whoa whoa whoa I'm on my way
'Cause I want you to hear
This love songs gonna dry your tears
Know inside you want me back
Now our perfect loves got a perfect soundtrack Yeah you said we'd always be together
Such a perfect fairytale and you would never
Kiss my best friend kill my innocence
Your gonna love me forever
According to the song,
According to the best song ever. Whoa whoa (best song ever) yeah it's the best song ever
(Whoa whoa) according to the song, according to the best song ever.
