

# Burning Down Inside

Tyketto

Play the game of indecision  
Come what may, she knows it isn't just  
His voice on the line  
One final time she hears thunder  
Precious lies when she played her part  
Still she tries, because hope dies hard  
With broken wings, she can feel the sting  
Like a backhand over the telephone  
In her eyes, shimmers twilight  
Drivin' hard, it gives up the fight  
And she fights it back, knowing that  
The dam could break wide open  
Burning down inside  
Nobody wants to be lonely  
Burning down inside  
The harder they come  
The harder she falls  
To her face, I show my arm  
I walk away, before I do more harm  
And with the damage done  
She won't know where to run  
Or who to run to  
Turnin' like a spinning wheel  
Dancin' on her head  
Tries so hard to walk away  
She falls in love instead  
My head says  
We should always go our own ways  
Never get too close  
When she can hear my heart  
If she comes apart, I'll be waiting  
Burning down inside  
The harder she falls  
Burning down inside  
Burning down inside  
The harder they come  
The harder she falls  
Burning down inside  
Burning down inside  
Burning down inside  
The harder they come  
The harder she falls  
Burning down inside  
The harder they come  
The harder she falls
