

Wind Up Dream

Beady Eye

If tonight is all we have
Then make the bed with sheets of glass
Let's take it out for one last laugh
Come on, come on If yesterdays is all we got
We tie our bones in one big knot
Squeeze it out 'til every drop
Is all gone, all gone, come on It's just a wind up dream
So don't wake me up
'Cause I like what I see
With my eyes shut Solid gold glints in your eye
A cheeky grin that really makes me smile
The world will want a bit
The world will want a bit It's just a wind up dream
So don't wake me up
'Cause I like what I see
With my eyes shut It's just a wind up dream
So don't wake me up
'Cause I like what I see
With my eyes shut
