

# Golden Star

## My Brightest Diamond

I always felt so far from you  
Like something wasn't right but tonight  
I rest my head inside the crook of your arm  
And I feel like a golden star  
Exploding  
(Tonight we are full)  
(Tonight we rejoice)  
Exploding  
(You are my golden star)  
Exploding  
One, two  
Though everything has come undone  
The distance between us closes  
And everything is suddenly  
Exploding  
(Tonight we are full)  
(Tonight we rejoice)  
Exploding  
(You are my golden star)  
Explode  
Tonight we are full up  
In spite we rejoice  
Tonight we are full up  
In spite we rejoice like stars exploding  
Exploding  
Exploding  
Exploding  
Exploding
