

# How Did We Come to This

## Stacye Branche

Maybe I was too afraid to know what I was feeling  
I didn't want love to come and capture my soul  
I took for granted you would always be here  
And that our love would only grow

### Chorus

So, how did I come to this  
Tears running down my face  
My smile tears have replaced when I think of you  
How did you come to this  
Not being here with me  
You said you'd never leave  
And you would always Love me  
Always love me

When you left you took apart of me with you  
There so many things I wish I had said  
I ask my self time and time Again love  
How am I gonna live without us

### Chorus

So, how did I come to this  
Tears running down my face  
My smile tears have replaced when I think of you  
How did you come to this  
Not being here with me  
You said you'd never leave  
And you would always love me  
Always love me

### Bridge

Tell me how  
I'm here without you  
I miss holding you at night  
I'm calling to you  
I'm missin' you love  
I need you here With me  
I need you here tonight
