Cruise Control

Fatty Koo

I met this young man just the other day
He set my world on fire in a special way
He had the prettiest smile that I ever seen
It kind of felt like a day dream
Hey, are you goin' my way?
Baby, can I take you there?
It was the first warm night of spring
And love was everywhere
I didn't think twice
As I jumped into his ride
Stree lights flashing by
As I whispered in his ear
We can ride on cruise control
In the drop top singing to that old school soul
Baby, close your eyes and kiss me
Then she made me lose control
She was so hot, couldn't keep my eyes on the road
Then she touched me, baby baby
Smooth ride down the road side
Underneath the starlite sky
I'm beside you
Relax, sit back, enjoy the ride
I'll put it in auto drive
Are you down to be my boo?
Baby, we can take this
Anywhere you wanna go
Baby, tell me what you really like
There's no wrong or right
That's just what we'll do

Let me ease your body, baby
From head to toe
Gently moving closer
Take it nice and slow
I couldn't resist
Such a sweet and tender kiss
Time stood still
It was feeling like perfect paradise
We can ride on cruise control

In the drop top singing to that old school soul
Baby, close your eyes and kiss me
Then she made me lose control
She was so hot, couldn't keep my eyes on the road
Then she touched me, baby baby
Uh uh
Uh uh, keep cruising
Uh uh
Uh uh
Put the ride on cruise control
In the drop top singing to that old school soul
Baby, close your eyes and kiss me
Then she made me lose control
She was so hot, couldn't keep my eyes on the road
Then she touched me, baby baby
Uh uh
Uh uh, keep cruising
Uh uh
Uh uh, keep cruising
