Incomplete

Hoobastank

Haven't known you long enough
But now I'm seeing why
You're always on my mind
No one else has ever made me open up my eyes
You're the one that made me realise

Realise

I've been incomplete

Missing a part of me

Blinded by the fear of something new

But now I see

All along what's missing has been you

Try to find a missing piece

To fill a hole in me

A lonely mystery

Thought I had it figured out

But then you came along

And with just a look

I knew that I was wrong

I was wrong

I've been incomplete

Missing a part of me

Blinded by the fear of something new

But now I see

All along what's missing has been you

I'm feeling things I never knew existed

And now I know I'll never be the same

This changes everything

Haven't known you long enough

But now I'm seeing why

You're always on my mind

You're the one that made me realise

Realise

I've been incomplete

Missing a part of me

Blinded by the fear of something new

But now I see

You were all that's missing

And you're here with me

I'm no longer incomplete

I can see the clear and simple truth
For me to be
Complete I only have to be with you
For me to be
Complete I only have to be with you
