

# In My Time of Need

[Ryan Adams](#)

Will you comfort me in my time of need  
Can you take away the pain of hurtful deeds  
'Cause when we need it most there's no rain at all  
And the dust just settles right there on the feed  
Will you say to me a little rain's gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me  
Cause when the calm comes down  
I take the truck on into town  
And buy whatever we can't seem to grow  
I work these hands to bleed 'cause I got mouths to feed  
And 15 dollars hid above the stove  
Will you say to me a little rain's gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me  
It ain't like it was on back in those days  
When everyone would offer up a hand  
These old bones are worn  
I've grown tired some  
And I know my time is surely gonna come  
Will you comfort me in my time of need  
Can you take away the pain of hurtful deeds  
Cause I will comfort you when my days are through  
And I'll let your smile just off and carry me  
Lord we married young and stayed where we came from  
And gave those children everything we had  
Will you stay with me in my time of need  
Though it seems we had such little time for us  
Will you say to me a little rain's gonna come  
When the sky can't offer none to me  
Cause I will come for you  
When my days are through  
And I'll let your smile just off and carry me
