

# Beer Can Chicken

Kenny Chesney

It seems like everything that's good in life you've got to wait for  
I came... dad said on a lake in Tennessee  
And it's like sitting there and learning  
Just to watch the morning sunrise  
All I know is what it does to me

It's like Friday night working on a three day weekend  
Something in a jar just made for sipping  
It's feeling like a feel good time bomb ticking  
Standing round waiting on beer can chicken  
It's the little things that make life worth living

That old jam box playing in the background takes me somewhere  
Back to some old lake, not country highway radio  
I've got all my friends hanging out, sitting right here with me  
When I get this old feeling I just know

It's like Friday night working on a three day weekend  
Something in a jar just made for sipping  
It's feeling like a feel good time bomb ticking  
Standing round waiting on beer can chicken  
It's the little things that make life worth living

Would you look at this night that we've been given  
It's the little things that make life worth living  
Would you look at this night that we've been given  
It makes life worth living

It's like Friday night working on a three day weekend  
Something in a jar just made for sipping  
It's feeling like a feel good time bomb ticking  
Standing round waiting on beer can chicken  
It's the little things that make life worth living

Turn it up, let's go  
Pretty girl dancing... by the sea shore  
Dirt track, turn to four  
Peddle to the metal, gonna show you what we're here for  
Six strings, good songs  
Old wooden bowl with a skull and crossbones

Full moon, that's right  
Green grass, clear the lights, just waiting on high time  
And beer can chicken  
Just look at this life that we've been given
