

# I Gotta Dream On

## Herman's Hermits

Your pretty face came into view  
And then what could I do? My dream began again  
So here I go into a world where I can  
Dream on, just thinkin' of you  
I gotta dream on; that's all I can do Now that you know how I feel for you  
It just goes to show I'll be true to you  
So here I go into a world where I can  
Dream on, just thinkin' of you  
I gotta dream on; that's all I can do 'Cause if you want me by your side  
You gotta hold your hands across the sky  
Tread the stairway through the stars  
Into your arms, into your arms Your pretty face came into view... 'Cause if you want me by your side... Your  
pretty face came into view... (Repeat and fade):  
I gotta dream on, just thinkin' of you  
I gotta dream on, that's all I can do
