

Day Dreaming (Boson Remix)

[Nina Sky](#)

Put the lights up, I wanna see your face,
When the nights up, remember you in my brain,
I wanna make sure we meet later in my dreams,
even though youre not the one laying with me. We can spend the night together,
do it for the rush, we dont gotta touch,
Take a little ride whenever,
never gotta lie, if we close our eyes. Were just Day Dreaming, dreaming,
day dreaming, dreaming.
Day Dreaming, dreaming,
day dreaming, dreaming. Nobody can say that were dishonest,
Whats going on between us in so harmless,
a private affair just me and you,
dont gotta be scared with what we do, we do, we do. Were just Day Dreaming, dreaming,
day dreaming, dreaming.
Day Dreaming, dreaming,
day dreaming, dreaming. I close my eyes to find you,
youre my little secret.
whenever I decide to,
thats the way well keep it.
I close my eyes to find you,
youre my little secret.
whenever I decide to,
and thats the way well keep it. Day Dreaming, dreaming,
day dreaming, dreaming.
Day Dreaming, dreaming,
day dreaming, dreaming.
