

Devotion

Hurts

Inside the heart of every man
There is a lust you understand
And I'm just the same When all the love has gone away
And passion stares me in the face
Could I walk away Here's hopin'
You'll help me to be brave Devotion save me now
I don't wanna stray from the hallow ground
I'll turn temptation down
I'm asking you to take me to safety this time Forgive my thoughts when I'm asleep
Forgive these words I'm yet to speak
I feel so ashamed Right now you seem so far away
So much confusion clouds my mind
And I don't know which path to take Here's hopin'
You'll help me to resist Devotion save me now
I don't wanna stray from the hallow ground
I'll turn temptation down
I'm asking you to take me to safety this time Devotion, devotion
I'm a slave onto the mercy of your love
For so long I've been so wrong
I could never live without you Devotion, devotion
Take me to safety
