

Space Is Cool

Markiplier & The Gregory Brothers

Hello everybody my name is Markiplier
And this is a game about space

Space
It's so beautiful
The elegance
And the story of why
I love space

Oh that's so coo-oo-oo-oo-ool
So coo-oo-oo-oo-ool
My computer can't handle the rendering

Oh that's so coo-oo-oo-oo-ool
So coo-oo-oo-oo-ool
Oh it's so pretty
So pretty

There are billions and billions of stars
Oh look
There are billions and billions of galaxies
Alright!
There is nothing I like more than space
So let's blow something up here!
Let's blow something up here!
Oh, oh, oh...

If there was a program for volunteers to go into space
With like a 100% chance of dying
From death by space
I would be the first in line
If they needed brave volunteers
Or stupid volunteers
I would be there so fast

Oh that's so coo-oo-oo-oo-ool
So coo-oo-oo-oo-ool
My computer can't handle the rendering

Oh that's so coo-oo-oo-oo-ool

So coo-oo-oo-oo-ool

Oh it's so pretty

So pretty

There are billions and billions of stars

Oh look

There are billions and billions of galaxies

Alright!

There is nothing I like more than space

So let's blow something up here!

Let's blow something up here!

Oh, oh, oh...

Every tiny speck

Is probably a star

It's so big

Every speck

It's so big

I would love every struggle

The terrible experience that it may or may not be

With certain death on the horizon

Just for a chance to go into space

Oh that's so coo-oo-oo-oo-ool

So coo-oo-oo-oo-ool

My computer can't handle the rendering

Oh that's so coo-oo-oo-oo-ool

So coo-oo-oo-oo-ool

Oh it's so pretty

So pretty

There are billions and billions of stars

Oh look

There are billions and billions of galaxies

Alright!

There is nothing I like more than space

So let's blow something up here!

Let's blow something up here!

Oh, oh, oh...

Oh that's so coo-oo-oo-oo-ool

And as always

I will see you in the next video

Bu-bye!
